FOREWORD

This amendment has been prepared by IEC technical committee 61: Safety of household and similar electrical appliances.

The text of this amendment is based on the following documents:

FDIS	Report on voting
61/1463/FDIS	61/1515/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

19 Abnormal operation

19.1 Add the following:

Deep fat fryers with **detachable heating elements** are also subjected to the test of 19.102.

19.13 Add the following:

A temperature rise of 200 K is allowed for the floor and the walls of the test corner during the first minute of the test of 19.102.

Add the following:

19.102 Detachable heating elements, which are not automatically switched off when removed from the deep fat fryer, are placed on the floor of the test corner in the most unfavourable position. They are operated at **rated power input**.
